PROFESSIONAL SUMMARY

Microsoft Certified Fabric Analytics Engineer and PEC Certified Software Engineer with experience in business intelligence, data analytics, regulatory reporting, data transformation, and automation. Skilled in Power BI, SQL, Python, Microsoft Fabric, AWS, and ETL processes, with hands-on experience in data ingestion, reconciliation, validation, dashboard development, and data quality. Experienced supporting international clients across financial services, retail, and petroleum industries, transforming complex datasets into reliable reporting solutions and actionable insights. Strong analytical problem-solving, stakeholder communication, and client delivery skills. Currently preparing for the PL-300 Microsoft Power BI Data Analyst certification.

TECHNICAL SKILLS

Business Intelligence & Visualization: Power BI, DAX, Power Query, Microsoft Fabric, Excel, Advanced Excel, Dashboard Development, Data Visualization

Data Analytics: SQL, Python, Data Analysis, Statistical Analysis, Data Modeling, Data Mining, Data Validation, Data Reconciliation, Data Transformation, Data Quality, ETL

Data Engineering & Cloud: Microsoft Fabric, AWS, Amazon S3, AWS Glue, State Machines, Data Ingestion, Workflow Automation

Databases & Enterprise Systems: MySQL, SAP, SAP ERP, Microsoft Dynamics 365, QuickBooks, QuickBooks POS

Programming & Analytics Libraries: Python, Pandas, NumPy, Matplotlib, Plotly

Professional Skills: Requirement Gathering, Stakeholder Communication, Project Management, Agile Methodologies, Client Management, Root Cause Analysis

PROFESSIONAL EXPERIENCE

Data Analyst (Contractor)

Kaizen Reporting | Islamabad, Pakistan (London, UK) | May 2025 – August 2026

- Supported regulatory reporting and data analysis for 100+ banking clients across global reporting frameworks, including EMIR, ESMA, CSA, CFTC, and SEC.
- Developed and maintained data transformation workflows using Lavastorm to process complex financial datasets and support regulatory reporting requirements.
- Performed data ingestion, validation, accuracy testing, and reconciliation across multiple sources to ensure data integrity and reporting quality.
- Investigated trade drops, triggering events, reporting issues, and trade-related discrepancies; conducted root cause analysis and provided detailed reasoning.
- Collaborated with cross-functional teams and leveraged AWS-based workflows to improve data processing, operational efficiency, and reporting reliability.

Freelance - Level 2 Seller

Fiverr | Remote | December 2023 – Present

- Delivered international client projects involving digital content, automation, branding, and creative solutions.
- Managed end-to-end project delivery, including requirement gathering, client communication, solution development, revisions, and deadlines.
- Managed multiple projects simultaneously in a remote environment while maintaining service quality and client satisfaction.

Data Analyst

Siccotel | Karachi, Pakistan | June 2024 – May 2025

- Analyzed business and financial data for US-based clients across grocery retail, fuel stations, and petroleum businesses.
- Developed interactive Power BI dashboards using data extracted from QuickBooks and raw CSV/Excel files.
- Performed data cleaning, transformation, modeling, and analysis to uncover business trends, operational performance, and actionable insights.
- Contributed to approximately 20% business growth through analytical reporting and dashboard solutions.

WordPress Developer (Remote)

Creative MediaLink | Remote | June 2023 – November 2023

- Designed and developed a WordPress website to improve brand visibility and online presence.
- Implemented SEO practices and optimized website structure and content for search performance.
- Improved user experience using HTML, CSS, and responsive design techniques.
- Monitored and maintained website performance and functionality.

Software Quality Assurance Intern

Zindigi (App in Snap) | Islamabad, Pakistan | August 2023 – September 2023

- Conducted manual and automated testing for web and mobile applications.
- Created Python test scripts to support testing and streamline quality assurance processes.
- Verified application functionality, documented defects, and supported issue resolution.
- Worked within Agile workflows and QA documentation practices.

EDUCATION

Bachelor of Software Engineering (BSE) | Bahria University | March 2020 – June 2024
